

Abdelrahman Ibrahim

Civil Engineer

Dear MR

Upon learning of your need for a Civil Engineer, I felt compelled to submit my resume for your review. With more than 8 years of experience in building and structure development, installation, modification, and maintenance—as well as my superior project management and team leadership abilities—my talents would significantly benefit your organization. My expertise lies in performing detailed feasibility studies, designing initial structure plans, adhering to defined budgets, and resolving issues or concerns while minimizing environmental impact. From determining project scopes and consulting with clients to overseeing comprehensive engineering functions and training and supervising teams, I demonstrate success in driving all phases of civil engineering projects from ground to finish. Consider the following highlights of my qualifications: Supervising all aspects of operations, development, obtained all necessary permits, addressed the public and various agencies regarding potential disruptions, and led weekly status update meetings with contractors and inspectors. Reviewing and approving project drawings and specifications, preparing cost estimates, preparing proposals and schedules, and tracking expenses and deadlines to meet all deliverables. Facilitating success for quality-focused projects through expertise in AutoCAD. Interpersonal, and motivational skills to propel projects and teams to peak results. My superior knowledge and experience in civil engineering and project leadership will contribute immensely to the success of future projects with Surface International. I look forward to a look at my attached resume and discussing the position in further detail.

Thank you for your consideration.

Sincerely,

Abdelrahman Ibrahim
