SUMMARY

A Highly disciplined, fast learner and hardworking Engineer, seeking a challenging opportunity that suits my qualifications, skill-set and potential in a reputable organization that provide a door for growth and development.

PROFESSIONAL EXPERIENCE

Site Civil Engineer, Al Handasya, Egypt

Sept. 2020 - Sept 2022

IL MONTE GALALA – Luxury Villas Project

Major Duties

- Carrying out day to day site operations and monitor the construction work, incorporation of materials and ensure they are carried out in accordance with the contract, drawings, project plan, deadlines and relevant safety regulations.
- Planning the work and efficiently organizing the site facilities in order to meet agreed deadline.
- Inspecting and testing materials prior to their use at site as per sample approved by consultant and ensuring the removal of the rejected materials from the site.
- Prepare BOM, Ensuring resources availability, distribution and allocation.
- Control the distribution of workforce and equipment on the construction site.
- Monitoring daily work progress on the site and preparing reports as required.
- Inspect safety conditions and inform the Contractors of construction safety violations and follow up actions to be taken.
- Responsible for quality control according to approved method statements, quality plans, inspection and test plans prepared by the project management team.
- Provide all photographs before, during, and after construction necessary to provide adequate documentation of changes in site and adjacent structures.
- Delivering each phase and getting the IR approved by the consultant.
- Ensure that the Contractor is not relieved of his responsibilities without Client's authorization.
- Review the Contractor's plans for protection of existing buildings and structures.
- Ensure all permits are obtained from related government authorities.
- Ensure all construction activities are in compliance with local traffic ordinances and public convenience.
- Prepare BOQ, cost estimation and tender submission.

- **Site Civil Engineer Trainee, Internship Program**
SODIC ALLEGRIA - Villas Project

July 2015 - Sept. 2018

- 3 months a year of summer training program for 4 consecutive years in site, through the program we worked closely with the civil engineers to resolve issues, review documents, perform planning, preparing maps, QA/QC, and site execution (surveying, soil tests, digging, insulation, pouring concrete elements and workforce management).
